## PROJECTS

### Metro App

| Repo: <https://github.com/JMantis0/metroApp> | Deployed: <https://metroappx.herokuapp.com/>

- Provides UPS management teams a real-time solution to track and update the status of UPS package cars.
- This tool protects service commitments to customers and reduces service failures by increasing visibility and by eliminating inaccuracies and errors that accompany traditional paper checklists.
- Tools/Languages: Node, Express, MySQL, Sequelize, Axios, xlsx, React, Material UI, Indexed DB, Dexie, Moment.js

### brewR

| Repo: <https://github.com/JMantis0/brewR> | Deployed: <https://brewrs.herokuapp.com/>

- Full stack web application for brewers and beer enthusiasts, built by a team using agile development methodology.
- Users can create accounts, search and save their favorite breweries, and blog about their brewery experiences.
- Tools/Languages: Node, Express, jQuery, HTML, CSS, MySQL, Sequelize, passport, Open Brewery DB API, particle.js

### Weather Dashboard

| Repo: <https://github.com/JMantis0/weather-dashboard> | Deployed: <https://jmantis0.github.io/weather-dashboard/>

- Front end application that provides current weather data and a five-day forecast for any city around the world.
- Mobile-responsive design. Also provides a history of searched cities and 1-click access to weather data for previously searched cities.
- Tools/Languages: HTML, CSS, JavaScript, Local Storage, Bootstrap, openweathermap.com API
