Front End: JavaScript, HTML, CSS, React.js, DOM, REST APIs, Git, GitHub, Agile Software Development Methods, Object-Oriented (OO) Programming, JSON, AJAX, Indexed DB, Caches, Service-workers, Progressive Web Applications, Application Programming Interfaces (APIs), Material UI, Bootstrap.

Back End: Node.js, Npm Modules, Express Application Framework, SQL, MySQL, NoSQL, Server-side Application Programming Interfaces (APIs).

PROJECTS

Metro App
| Repo: https://github.com/JMantis0/metroApp **| Deployed:** https://metroappx.herokuapp.com/
- Provides UPS management teams a real-time solution to track and update the status of UPS package cars.
- This tool protects service commitments to customers and reduces service failures by increasing visibility and by eliminating inaccuracies and errors that accompany traditional paper checklists.
- Tools/Languages: Node, Express, MySQL, Sequelize, Axios, xlsx, React, Material UI, Indexed DB, Dexie, Moment.js

brewR
| Repo: https://github.com/JMantis0/brewR **| Deployed:** https://brewrs.herokuapp.com/
- Full stack web application for brewers and beer enthusiasts, built by a team using agile development methodology.
- Users can create accounts, search and save their favorite breweries, and blog about their brewery experiences.
- Tools/Languages: Node, Express, jQuery, HTML, CSS, MySQL, Sequelize, passport, Open Brewery DB API, particle.js

Weather Dashboard
| Repo: https://github.com/JMantis0/weather-dashboard **| Deployed:** https://jmantis0.github.io/weather-dashboard/
- Front end application that provides current weather data and a five-day forecast for any city around the world.
- Mobile-responsive design. Also provides a history of searched cities and 1-click access to weather data for previously searched cities.
- Tools/Languages: HTML, CSS, JavaScript, Local Storage, Bootstrap, openweathermap.com API

WORK EXPERIENCE

United Parcel Service   January 2016 – Present
Hub Supervisor   Seattle, Washington
- Increase operational data visibility by generating and distributing reports from company databases.
- Protect UPS from liability by ensuring compliance with government regulations.
- Provide leadership, training, team environment, and direction to UPS package handlers.
- Scored Highest in the District by the internal Corporate Compliance Audit.

EDUCATION

University of Washington – Seattle, Washington   September 2020
