I am a full stack web developer with a Bachelor of Science in Mathematics and Statistics. I recently completed the Full Stack Web Development Bootcamp at the University of Washington. I have been a hub supervisor for UPS the past 4 years. My work experience is in logistics, technical service, and operations management. My skills include collaboration, inter-personal relationships, leadership, empathy, conflict resolution, problem solving, organization, and prioritizing multiple responsibilities.

TECHNICAL SKILLS

Front End: HTML, Javascript, Asynchronous Javascript, CSS, Object-oriented programming, IndexedDB, caches, service-workers, Progressive Web Applications, Web Application Programming Interfaces (APIs), React, Material UI, Bootstrap.

Back End: Node.js, Node Package Manager, Express servers, Express routing, MySQL, Mongo DB, Sequelize, Server-side Application Programming Interfaces (APIs),

PROJECTS

Metro App
| Repo: https://github.com/JMantis0/metroApp **| Deployed:** https://metroappx.herokuapp.com/

- Provides UPS management teams a real-time solution to track and update the status of UPS Package cars.
- This tool protects service commitments to customers and reduces service failures caused through increased visibility and elimination of inaccuracies and errors that accompany traditional paper checklists.
- Tools/Languages: Node, Express, MySQL / Sequelize, Axios, xlsx, React, Material UI, Indexed DB / Dexie, Moment.js

Spectrum Messaging
| Repo: https://github.com/JMantis0/spectrum-messaging **| Deployed:** https://spectrum-messaging.herokuapp.com/

- Messaging Application that utilizes text analysis API to detect emotional context
- Allows users to more easily identify the sentiments underlying their messages
- Tools/Languages: Node, Express, MYSQL / Sequelize, Axios, MaterialUI, Auth0, React

Weather Dashboard
| Repo: https://github.com/JMantis0/weather-dashboard **| Deployed:** https://jmantis0.github.io/weather-dashboard/

- Application that provides current weather data and a five-day forecast for any city around the world.
- Mobile friendly application also provides a history of searched cities and provides 1-click access to weather data for previously searched cities.
- Tools/Languages: HTML, CSS, JavaScript, Bootstrap, openweathermap.com API

WORK EXPERIENCE

United Parcel Service
Hub Supervisor

January 2016 – Present
Seattle, Washington

- Oversee the operational needs of Seattle Hub's Air Container Operations
- Generate reports from company databases
- Protect company from liability by ensuring compliance with government regulations
- Provide leadership, training, and direction to UPS package handlers
